Mrs. Manly.

Schenectady 5, N.Y. July, 9-46.

Schenectady will have open a new Ball park within ten or two weeks. with the best Lights. In minor League parks. and will seat about 5000. at the present time. we have League ball here. but this city was the best city in this section of the Country for Colored Base Ball. before the ~~War~~. War. So the chances are that Colored Base ball will go again as fans are asking for some of those games. Now I can get the park when the club is on the Road. So would it be possible that you could bring your club with another crack League club. to put on a night game or two here. It will cost \$55.00 for the Lights and ten per cent of the receipts. I would get plenty of advertisement. and I believe we would go big. So what do you think about coming up the later part of

July or first week of August, hope to hear  
from you.

Yours Truly  
Henry Bozzi:
